Owner: Olivia Laxson, Cactus Rose Labradors

## BREEDING TERMS

- This contract guarantees only the actual mating of the listed dogs. It does not guarantee a pregnancy or puppies. Two (2) live puppies forty-eight (48) hours after whelping constitutes a litter and successful breeding which fulfills the conditions of this stud service with the above-described bitch.
- Stud fees are \$1800-2500 depending on the stud. Stud fees are subject to change without notice. Service fees are always \$500.
- Stud service is provided to approved bitches only and will be at the discretion of the stud owner. All bitches must be two years of age and have a minimum of hips, elbows, and eyes completed. Also if the stud is a carrier of anything, the bitch must be clear. Proof of testing and a copy of the bitches pedigree must be provided prior to breeding. Only dilute free females from dilute free lineage shall be serviced.
- A non-refundable, non transferrable service/handling fee is available as a convenience. Fees are due upfront and prior to the first breeding/shipment of semen. Absolutely no exceptions. All shipping charges and box/extender expenses are the sole responsibility of the bitch owner. You will need to provide us with a FedEx number for these charges.
- The stud owner is not responsible for loss of semen during transport or late arrival of shipment. Progesterone testing is required to determine the optimal date of shipping and insemination.
- The remaining stud fee balance is due within 10 days of two or more live puppies being whelped. If only one puppy is born, no further money is owed. If no puppies result from this breeding, no refund will be given of the service fee and the transaction will be final. This is to compensate the stud owner for their time.
- For payment, we utilize Zelle, CashApp, ApplePay, or Venmo. You may also mail a check, but you must mail it in enough time to clear by the 10 day of age mark. Cash is also acceptable, when able.
- If a side by side breeding is desired, the bitch must have a negative brucellosis test that is not more than 30 days old. Cactus Rose Labradors will house females in heat in a private run of her own. We do not turn females in heat out with our other dogs (for obvious reasons). No aggressive females will be serviced.

- Litter applications can be mailed to the stud owner or completed online. Each stud's registration number is included on our website for your convenience. Litter applications will not be completed until the balance of the stud fee has been paid in full.
- All puppies resulting from this breeding are to be placed on limited registration, unless being kept by the bitch owner or placed in the homes of responsible and reputable breeders. We ask that any puppies placed on full registration be evaluated by a professional to make sure they are quality, but we understand that we can only make recommendations regarding this. We do require that no puppies shall be sold to any puppy mills, brokers, pet shops, or anyone representing them. No puppies shall be placed with any dilute breeders, doodle breeders, or anyone doing business with them.
